- NK - gummed,
- no glue,

Technologies of closing letter envelopes:

Straight flap:

- NK - gummed,
- HK - self-adhesive with a stip,
- SK - self-adhesive,
- no glue,

Kuvmatic trapezium flap (machine packing):

- NK - gummed,
- no glue,

The most important functions of letter and file envelopes:

Inside print - prevents content from being read without opening the envelope.

Flap and gluing closure flaps - for manual or machine packaging.

Advertising medium - printing company motto, logo on the envelope, insideprint.

Collect as much information as possible about the envelope you need and send letter with the project for printing. We will take care of the rest and advise you the best solution!

Print

Customer's prints from ready-made PDF files. There is also a possibility to use our graphic studio, which will expertly advise and improve projects. We will choose the printing technology ourselves for the project.
